CITIZENS' MEETING TUESDAY EVENING

THREE OR FOUR DOZEN GATH-
ERED AT MASONIC HALL AND
COMMUNED WITH EACH OTHER
ABOUT TAXES.

A number of citizens and taxpayers
of Daytona met at the Masonic hall
on Orange avenue, Tuesday evening,
for the purpose of discussing munic-
ipal taxes. Some complaint has been
heard lately on the streets and in
other public places about the city tax
assessments for the current year, and
the talk culminated in the gathering
above referred to. One or two citi-
zens briefly addressed the 40 or 50
persons present, briefly outlining the
alleged reasons for kicking.

Because no one seemed to know ex-
actly what to do, nothing definite was
done, further than to issue a call for
a mass meeting. It is understood that
this will be held next Monday even-
ing at the New Daytona theater. Citi-
zens present at last night's meeting
contributed to a fund which is to be

used in paying the expense of adver-
tising next Monday's gathering.

mount will be discussions of ways of

Mrs. Murray Foltz entertained on
Tuesday at a shower-luncheon and
theater party given in honor of Miss
Hazel Williams, whose marriage to
Ben Foltz takes place the first of
May.

The seven-course lunch was a very
pretty affair. The color, yellow, was
effectively used in the different
courses as well as in table decora-
tions which were nasturtiums. The
flowers used elsewhere in the rooms
were sweet peas, jonquils and lark-
spur.

After the luncheon there was a
shower of pretty gifts for the honoree
and then all moved on to the Crystal
movies.

SWASTIKA PARTY ENJOYED A TRIP TO THE OPEN SEA

W. E. Blodgett made another of
his pleasant excursions with his boat,
the Swastika, on Tuesday, taking a
congenial party of friends and ac-
quaintances to the inlet and over the
bar into the broad Atlantic. The
strong southeast wind had kicked up
quite a sea and there were rollers
enough to satisfy all on board and
almost too much for one of the party.
It is said. After cruising about for a
time well out from shore, the Swas-
tika was brought back into the Hal-
fax by Mr. Blodgett and a picnic din-
ner was enjoyed on board the boat
while it lay in the vicinity of the
lighthouse. It was a stag party that
enjoyed Mr. Blodgett's hospitality.

included Capt. Ralph H. Nutting, R.

GEORGIA FEDERATION OF LABOR AT COLUMBUS

COLUMBUS, Ga., April 12.—The
Georgia Federation of Labor met
here in annual convention today.
Practically all of the unions are rep-
resented by large delegations. The
convention favors three laws pre-
pared by the legislative committee,
one to require all concerns to pay
their employees twice monthly, one to
prohibit employers of labor from
docking and withholding wages, and
another for child labor sanitation and
other laws affecting manufacturing
plants. Each union in the state will
"get behind the legislation."

BIGGEST WARSHIP
MAY NOT LONG HOLD
THAT DISTINCTION

WASHINGTON, April 21. — The United States superdreadnaught, Pennsylvania, launched by the Newport Shipbuilding company a few weeks ago, when completed, will be the largest and most powerful fighting machine afloat.

How long will she hold that title? From present indications, not long. Already ordnance experts are beginning to think in larger units. When the keel of Uncle Sam's next superdreadnaught is laid, the belief now is that there will be included in her equipment a new feature.

This new feature promises to revolutionize the marine ordnance of the United States navy and will be the biggest step yet taken in the perfecting of the superdreadnaught type of battleship.

It is the new type of naval gun, 16-inch calibre—greater by one inch than the much-heralded guns of the powerful British superdreadnaught of the Queen Elizabeth class.

Experiments with this type of gun are, and for some time have been, underway by the ordnance officers at the naval proving grounds at Indian Head, Md.

The United States navy for years has religiously adhered to the 14-inch gun. They thought it filled the bill in all respects and didn't want any other. But the European war has taught lessons and the value of large calibre guns is one of them.

So successful have the experiments proven, thus far, that it is confidently predicted that the ordnance officers of the navy department will recommend the installation of this type of gun on the two dreadnaughts authorized by the last congress.

Should this style of equipment be extended also to the dreadnaughts California, Idaho and Mississippi, authorized last year, a complete division of 16-inch gun battleships would be available. This would make the most formidable unit afloat.

All tests of this type of weapon are carefully guarded, but it is said that the new gun is about forty-eight feet long and the weight of the projectile hurled is approximately 2,000 pounds.

A vessel mounting a full complement of these guns for its main battery—four turrets of three guns each—could hurl a broadside of about 24,000 pounds, or twelve tons.

This is about 10,400 pounds more than a broadside from the eight 15-inch guns of the British superdreadnaught Queen Elizabeth.

It is the work of this ship that the experts here are watching with the utmost care and the effectiveness of her ordnance will go a great way toward deciding the difference now existing between the two schools of naval armament.

Duty Ever Present.

A sense of duty pursues us ever. It is omnipresent, like the Deity. If we take to ourselves the wings of the morning and dwell in the uttermost parts of the sea, duty performed or duty violated is still with us, for our happiness or our misery.—Daniel Webster.

The Port Orange Literary and Library association under the administration of its able and efficient corps of officers, is making itself a strong factor in bringing the home people and winter residents, tourists and visitors together socially, and cultivating a taste for the purest, most elevating and fascinating in literature.

The meetings of the association have been uniformly interesting, useful and inspiring, broadening the views of the members to take in, in wider scope, the best things attainable. In dealing with association matters the members have manifested abilities of no mean order.

In their "cleaning up day," the members showed their sympathy with and set their approval on, and gave impetus to having a cleaner, better and more progressive town.

On their "guest day," the curtain was drawn aside and friends invited to come and participate in one of the many mental feasts of good things so lavishly provided. Thus inviting their guests to become more closely associated with them in striving to attain to the higher things of life.

Though the last official meeting of the association for the season was held on the 8th inst., a farewell picnic was held on Saturday last at Ridgewood hall. A number of the members have gone north and others were unable to be present, but 70 members and guests sat down to tables crowded with choice viands, which under the influence of good fellowship, were partaken of with zest. The store of food was so abundant that the proposition to come back and have supper found a willing response. Nearly all accepted and were present at the evening meal, and after all had partaken, several
